COLLABORATION AGREEMENT

This ng Connect Collaboration Agreement (this "Agreement") contains the terms and conditions that govern Collaborator's membership and participation in the ng Connect Program and is subject to the approval of Your application for membership by Alcatel-Lucent USA Inc. "We," "Us," "Our" and "Alcatel-Lucent" means Alcatel-Lucent USA Inc. (part of the Nokia Group), a company incorporated under the laws of the state of Delaware, having an office at 600-700 Mountain Avenue, Murray Hill New Jersey 07974 ("ALU-USA") or any of its Affiliate companies, as the case may be. "You," "Your," or "Yourself" means the Collaborating Member applicant. The term "Party" refers to either Alcatel-Lucent or the Collaborating Member applicant and "Parties" refers to both Alcatel-Lucent and the Collaborating Member applicant as the case may be. A "site" means a website. "ng Connect site" means the website located at URL <http://www.ngconnect.org> and its associated sub-domains. "Your Application" means the information provided on the registration pages located on the ng Connect site that will be used to assess your request for membership in the ng Connect Program.

BY CHECKING THE BOX INDICATING THAT YOU AGREE TO THE TERMS AND CONDITIONS OF THIS AGREEMENT, YOU (A) AGREE TO BE BOUND BY THIS AGREEMENT AND THE WEBSITE TERMS OF USE (TOU) <http://www.ngconnect.org/terms-of-use.htm> AND PRIVACY POLICY <http://www.ngconnect.org/privacy.htm> REFERENCED ON THE NG CONNECT SITE AND THAT THESE TOU AND PRIVACY POLICY ARE MATERIAL TO THIS AGREEMENT; (B) ACKNOWLEDGE AND AGREE THAT YOU HAVE INDEPENDENTLY

I agree.
 I disagree.

IMPACT Integration Support

About IMPACT

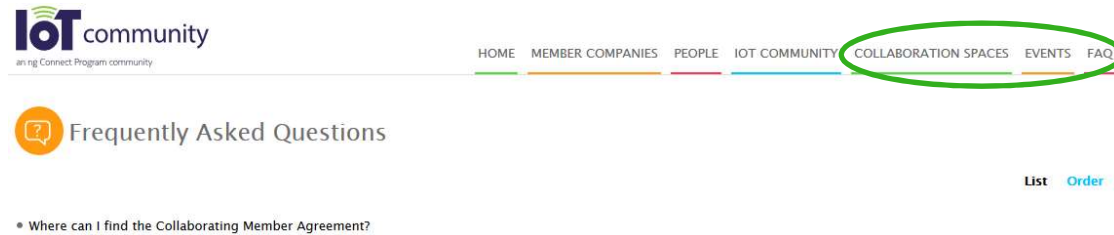

The Internet of Things will lead the next industrial wave. The Nokia IMPACT IoT platform has been designed to seize the opportunities our connected world will bring. With IMPACT, service providers and enterprises can capture more customers, develop new business models, and differentiate their competitive position in the market. IMPACT offers a secure, standards based, simplified IoT platform on which to build and scale new IoT services.

Key features:

- Industry leading device and data management with over 1.5 billion devices managed and a device certification program
- Management of a wide array of IP based protocols and non-IP based Low Power WAN protocols, including NB-IoT and LoRa
- Analytics driven NetGuard Endpoint Security that prevents infections via security analytics and threat intelligence
- An IoT Community that works with you to explore new business models
- Modular approach that addresses connectivity and device management, application development, event processing, data collection, and data contextualization

IMPACT can help you retain the value of today's infrastructure and meet near-term business needs. Yet, it is flexible enough to enable tomorrow's technologies and services. More details at <https://networks.nokia.com/solutions/iot-platform>.

Using the member hub – Collaboration Spaces, Events and FAQ

- Collaboration spaces are available to discuss, share information, post files, communicate milestones, etc. among several participating users, inaccessible to non-group members
- The events tab leads to a calendaring system for displaying general interest events. Upcoming events are posted on the main page / dashboard.
- FAQ's, at this level, are for general information about the member hub. Communities are able to have a separate FAQ section for use by the users in those groups.
